Infrastructure Details

The School Building has been constructed reflecting state of the art and contemporary applicable international practices it compliance with the NBC (2016) – SP7

Classrooms :

Every Classroom in the school is well ventilated having big corridors and allow natural light to come in from both sides of the room. Wall to wall windows on opposite side of every classroom allow cross ventilation helping to circulate air in the rooms.

Kindergarten playroom:

The Kindergarten Playroom is full of interactive, fun play equipment that help develop the psycho- motor and creative skills of the young children. The room has colorful wall to wall murals that the kids enjoy immensely. All the kindergarten classroom walls also have such colourful murals on them.

Kindergarten Play Area :

The Kindergarten play area is a sand lot where the children can play safely without fear of injury. The play area has two slides, two swings with eight seats appropriate for different age groups. There is also a fun sand pit which the children love to play in.

In addition, we also have lots of tricycles, slides, see-saw, ropes, play dough and other equipment that help improve and strengthen the psycho-motor skills of our children.

Toilets:

There are more than the required of toilets on each floor and they are maintained to a high standard. Boys and girls have separate toilets. The school believes that healthy children in a hygienic environment produce high learning

output. Thus, the school focusses on providing a healthy learning environment by :

- 1) Provision of facilities needed for sanitation, such as clean lavatories , toilets , hand-washing
- 2) Provision of personal and environmental hygiene education in the curriculum to develop skill, attitudes and knowledge for effective hygiene.

Staff Room :- The school building has separate staffrooms for gents and ladies teachers. Which Provides the teachers with lots of natural lights and ventilation and personal working places with lockers.

Sick Room : The school has a sickroom with bed for children who needs to rest and recover. we also provide first aid and basic medicine.

Mineral water system –

The School has a reverse osmosis mineral water System which provides pure and safe water through multiple number of taps. There is separate arrangement for boys and girls. They have access of cool purified water from water coolers.

Labs:

Physical Lab : The Well-equipped physics lab gives students the opportunity to engage in intellectually Challenging activities , such as building pulleys and levers , electrical circuits and other devices. The purpose is to provide students with a “hands on , minds on” learning experience.

Chemistry Lab : The Chemistry Lab Provides contextual learning and is very well-equipped . Ever mindful of the students Safety , The school Supplies them with protective eye goggles, lab aprons and gloves. Smoke detectors are installed in the lab for safety.

Biology Lab : Our aim is to inspire students to explore questions about aspects of their everyday life and the natural world by cultivating a spirit of enquiry. The biology lab provides students with sample facilities to do so. For instance , they could stain their own micro-organisms and then observe them under our advanced microscopes.

Maths Lab: A well-equipped maths lab has been set up , conforming to the guidelines and recommendations of the CBSE. Hands on exploration of

concrete material leads to greater conceptual understanding and problem-solving skills. The primary objectives of the Maths lab are :

- 1) To help dispel fear of mathematics (algebra and geometry) in pupils by making maths learning more meaningful and enjoyable.
- 2) To make mathematics more pragmatic and life-oriented.
- 3) To provide study and test-taking skills.
- 4) To Practice interactive maths on the computers.
- 5) To advance mathematical modelling of real life problem in order to come up with guided discovery activities and collaborative learning in groups.
- 6) To provide alternative instruction using a wide range of audio and video resources.

S.S Lab : Our Social Science lab has all types of maps physical and political , world map, continental maps and so on. The lab is full of

Library : The Library is a rich learning resource center. It sports a large reading room , wide and varied collection of more than 3300 books, magazines (both national and international) newspapers and CD'S. A well Skilled ?

Audio Video Rooms :-

The School has two AV rooms where teachers can show video related to syllabus A. V makes the Clear understanding of the concepts and topics.

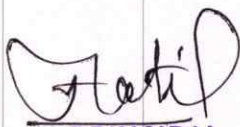

Music Room :-

Music room is equipped with the old and modern instruments i.e flute harmonium , guitar , durbuk etc Posters of great musicians & singers are also hanged in the music room for inspiration.

Dance Room :

A big dance room (20 X 40) with mirror gives lot of understanding of dance steps, proper moves and mistakes. This dance room is sound proof at the basement of the school.

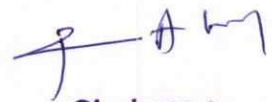

Gym : The school gym is equipped with all modern appratns like dumbells, Bench Press , High Leg- Pully , Leg Curve extension , chest press , Cum shoulder press , bicep tricep , peck deck etc.
